

Peer Consultation Group

For Michigan Clinicians in Private Practice

Hosted and Facilitated by:
Jessica Fealk, MA, LPC, IMH-E®

Daly Counseling & Consulting, PLLC

PURPOSE

The purpose of the group is to build a small community of diverse private practice Michigan clinicians for the purposes of **clinical growth**, **professional feedback** and **networking** so that private practice clinicians who can feel isolated, have a shared space for professional growth and community.

FEEDBACK from PARTICIPANTS

“The quality of feedback and engagement I receive and demonstrate is high. The group aids in my personal and professional development.”

“I look forward to Peer Consult every month! As an LPC in private practice it is great to be connected to other Michigan counselors. What I especially love about this group is the diversity in how we practice and the ideas that come out of our experience.”
